Part 4 of a series on personal, vanity, and philatelic perfin by Floyd A. Walker

Who was Jo Ro Jung Jr.? He is known to us through two personal perfins: J115P and J115.5IP. The latter is oversize and considered illegal under postal regulations.

I never corresponded with Jung or heard much about him from others in the Club. Inquiries to some of the older members many years ago never got a response. I was told at one time that Jung was an officer in the club, perhaps secretary.

The cover tells us that Jo Ro Jung lived in New Orleans and that he was corresponding with Keith Misegades, who was president of the Perfin Club. The notation on the cover suggests that the envelope may have contained something bulky, like a packet of perfins!

Something else is interesting. The envelope is cut down from a standard #10 business envelope and rather skillfully turned into a smaller size.

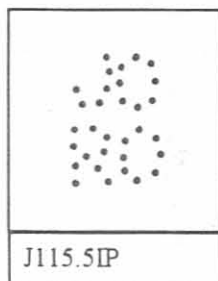

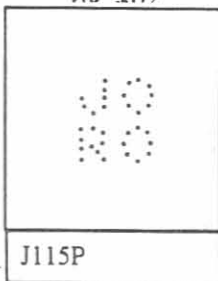

Can anybody tell me anything more about Jo Ro Jung? Does anybody have a copy of either of the

two Jung perfins they'd part with—on or off cover?
